

March 23, 2020

Dear Value Customer,

We have just received confirmation that as a manufacturer of flexible connectors and critical electrical components producing inputs necessary for the essential energy distribution sector, notably the Quebec electricity network and also customers around the world , we are an essential service authorized to maintain its operations.

Consequently, despite the orders made today by the provincial government forcing the closure of several businesses until April 13<sup>th</sup> **all of our operations will stay open as a critical supplier and confirm that we have the personnel and material resources as well as the authorizations necessary.**

Please be assured of our ongoing commitment to ensure that we can respond to your requests as quickly as possible under the circumstances, in addition to informing you quickly in the event of any changes.

We thank you again for your trust and remain available.
